

SEALABLE TEXTILE HOSE PROTECTION

5526-7X

Product info	Sealable textile hose protection with burdock seal. Made of fibreglass covered silicone.
Product info2	Handles environments with temperatures up to 200° C.
Type	Hose protection
Material	Silicon
Description	Sealable hose protection is the ideal solution when you have a need to protect several hoses. The heavy velcro lock makes it possible to protect the hoses that are already assembled. The protection is made of fiberglass coated silicone, which makes it capable to handle environments with temperatures up to 200° C.
