

PERMANENTLY PLASTIC SEALANT

5660-70-89

Type	Catridge
Contains	<ul style="list-style-type: none">- For sealing engines and bodies, in production and industrial engineering- Can be used to support solid seals- Excellent chemical resistance, especially against most synthetic oils, lubricants, gasoline, additives, gases, water, frost protection, etc.- Temperature resistance from -55°C to +270°C (short term up to 300°C)- Max. gap filling 0.20 mm- Unlimited lifetime in closed container
Colour	Red
Temperature min. °C	-55
Temperature max. °C	+270
