

TWINPUSH 5-50

9083-03-00

Product info	A semi-automatic machine for the easy assembling of hose and fitting. The machine is quick, reliable and easy to use. A unique centering system that assures that the hose is correctly aligned during the entire skiving and inserting process.
Product info2	The machine is equipped with two tool holders, which makes it easy to change between the tool for straight fittings and the tool for 45°/90° fittings.
