

SWIVEL

5577-01

Product info	Steel. Swivel 90°
Product info2	Swivel joint is not suitable for continuous or fast rotation.
Product group	510
Type	Swivel
Applications and characteristics	These valves are mounted between the end of a flexible hose and a fixed component to compensate hoses rotations and torsions and to prevent its damaging. They are used in every production field where systems have a flexible moving hose. In line mounting.
