

## P.T.F.E. HOSE, CONVULTUED

1091-00

<b>Product group</b>	110
<b>Inner tube</b>	Convulted P.T.F.E. (Teflon®)
<b>Temperature min. °C</b>	-70
<b>Temperature max. °C</b>	+230
<b>Media</b>	Oil
<b>Reinforcement</b>	One braid of stainless steel wire, SS 2330
<b>Safety factor</b>	1:4
<b>Applications and characteristics</b>	A very flexible high pressure hose due to the convulted inner tube. The hose is suitable for most hazardous environments. Large chemical resistance range, low friction and wide temperature range. Age resistant.  <b>The hose will be deleted during 2015 and will be replaced by 1091-01.</b>
<b>Ferrule</b>	4200-30-xx, 3800-30-xx
