

POWER STEERING

1447-00

Product group	144
Inner tube	Polyamide (PA)
Cover	Oil, weather and abrasion resistant polyurethane (PU)
Temperature min. °C	-40
Temperature max. °C	+100
Media	Power Steering Fluid
Reinforcement	Two braids of polyester
Safety factor	4:1
Applications and characteristics	A hose that is suitable for freezing media. It is resistant towards freon R134A, and it fulfils the following international standards: SAE 100 R-7, BS4983: 1973, DIN24951-2 and ISO 3945. Note! The hose can temporarily be exposed to temperatures up to +120°C.
Design	Smooth, black
