

# COMP CHEM LD10PTFE

1584-20

<b>Product group</b>	140
<b>Inner tube</b>	PTFE (Teflon)
<b>Cover</b>	Red weather and abrasion resistant polyester/polyvinylchloride
<b>Temperature min. °C</b>	-40
<b>Temperature max. °C</b>	+100
<b>Media</b>	Special, Chemicals
<b>Reinforcement</b>	Outer and inner stainless steel spiral
<b>Safety factor</b>	1:5
<b>Applications and characteristics</b>	Especially made for use as a universal hose for transportation of a wide spectra of aggressive medias. The hose is suitable when loading and unloading gas trucks and railroad cars as well as within the industry in different processes. Electric continuity is attained when the two spirals are put towards the hose's fittings. In this way, static electricity is avoided. On request, a special flame resistant version can also be delivered. Supplied in 40m coils. Vacuum = 70%
<b>Design</b>	Red
